

Organdi

Strengths

- White flower
- Resistant to lodging
- Suitable for animal feeding

Technological quality

Flower color	White
Vicine / Convicine	High
Proteins	31%
TGW	520g

Agronomic characteristics

Type	Winter
Earliness at flowering	Early
Height at maturity	Quite short
Lodging	Quite resistant
Frost	Low susceptibility

Diseases resistance

Anthraxnose	Low susceptibility
-------------	--------------------

The descriptive list is made from French official results for the varieties listed in France (1=susceptible, 9=very good level); *: Agri Obtentions' notations (): notations to be confirmed; TGW: Thousand Grain Weight
